

Objective:

I have recently graduated from Dominican University with a Master of Library and Information Science degree. I am looking to begin my career as an information professional with a mission-driven, service-oriented, and forward-looking organization.

Work experience

Before obtaining my Master's, I worked as a web developer. I am very experienced as both a frontend and backend web programmer.

Chicago Public Library Foundation

Chicago, IL
Cybernavigator
September 2023 - present

I work at the Edgewater branch of CPL, helping library patrons learn basic computer skills and improve their digital literacy, both answering questions about specific problems and doing 1 on 1 educational sessions.

Allied Vaughn

Content Management Services.
Livonia, MI
Migration Specialist
April 2021-Sept 2021

I worked here part time as an independent contractor on a project to extract metadata from entertainment industry contracts, formatting for entry into the Rightsline content management system.

mRelevance

Marketing Agency,
Arlington Heights, IL
PHP Developer
Jan 2017 – March 2018

I did coding for a custom CMS used to manage websites for home builders; lots of feature development and working with structured data to create searchable interfaces similar to sites such as Zillow and Trulia.

Manifest Digital

Marketing Agency,
Chicago IL
Senior Front-end Developer
Oct 2012 – March 2015

I was hired here as a contractor to work on a web application for Aptitude, a medical supply contracting company, and was then hired as a full-time employee working on a variety of projects, mostly Javascript-heavy web development.

Marcel Media

Marketing Agency,
Chicago IL
Web Developer
Nov 2008 – April 2011

Building websites for clients, mostly on web frameworks such as Wordpress, Magento, or Ektron. Consulting on existing sites for projects like advanced analytics tracking, semantic markup, and interface design.

Freelancing

Various marketing agencies and other companies
Web Development/Consulting
March 2008 – December 2016

When not otherwise employed, I worked on many smaller web development projects. A lot of Wordpress deployment, theming, and plugin development as well as template building and site migration with Drupal.

Education

Master of Library Science and Information,
Dominican University, 2022
BA in Communication, Media, and Theater, *summa cum laude*.
Northeastern Illinois University, 2020

Affiliations

Member, Special Libraries Association
